

BRIDGEWOOD

PLATFORM TENNIS & PICKLEBALL CLUB

2019 Season

Platform tennis is one of the fastest growing sports in the United States. It is played outside year round and is a great way to exercise in the winter!

The court is one-third the size of a traditional tennis court with a heater below and is surrounded by a wire fence. During the winter, snow can be pushed to the side and the heaters melt the remaining snow and ice. The taut fencing allows balls to be played off the wall and remain in play. The sport is played with a spongy, rubber platform tennis ball and paddle which are available in the Clubhouse. Platform courts are located behind the hotel near the Ground Round outdoor patio.

Learning to play platform tennis is relatively easy. It can be played by both men and women and by all ages. It is a doubles sport meaning that four players, two per side of the court, are needed to play the game.

Pickleball can also be played on the courts. This sport combines elements of tennis, badminton and ping-pong. It can be played as doubles or singles.
